MAZDA ORIGINAL OIL SUPRA-DPF
0W-30

DESCRIPTION

Mazda Original Oil Supra DPF 0W-30 is a lubricant exclusively designed for SKYACTIV-D Technology.

- Suitable for the toughest journeys, for all types of driving (urban, highway and motorway driving).
- Suitable for all driving styles.

APPLICATION

Mazda Original Oil Supra DPF 0W-30 is specially designed for diesel engines with SKYACTIV-D Technology, 1.5 L /1.8 L / 2.0 L / 2.2 L diesel engines with DPF.

CHARACTERISTICS

TEST	UNIT	RESULT
Kinematic Viscosity at 40°C	mm^2/s	50.1
Kinematic Viscosity at 100°C	mm^2/s	9.8
Viscosity Index	-	187
Flash Point	°C	234
Pour Point	°C	-48
Density	kg/m^3	843

CONSUMER BENEFITS

- Protection against wear — thanks to high anti-wear performance, this lubricant ensures excellent engine longevity.
- Protects the environment — reduces friction which allows fuel savings and a reduction in CO2 emissions. Oil performance also allows for a significant reduction of fuel consumption.
- Easier cold starts & enhanced driving pleasure — low temperature fluidity ensures easy starting under cold conditions with an immediate lubrication of the engine. Protection of engine parts is maintained even in high heat.
